Focus on Communication

Keeping our relationships strong

For family and friends of persons with dementia.

Supportive communication for people with dementia affirms self-worth and maintains dignity for individuals living with dementia. Communication is more than words alone. Join us to explore different aspects of communication that foster supportive communication.

At each session, we will focus on one strategy or technique and consider how it can support meaningful communication.

SESSION DATES

Friday, January 14th
Friday February 11th
Friday, March 11th
Friday, April 8th
Friday, May 13th
